## ACON NEGRO IS PLACED IN "TOWER"

### ...o Fever Quits Central City With Negro's Departure.

### ...EENE AND GAYNOR SCARED

**...arbor Fraud Prisoners In Jail When It Was Attacked—Jail Badly Torn Up When It Was Stormed—Troops Still On Guard.**

Macon, Ga., Oct. 8.—Henry Fews, the negro who shot Messrs. Solomon and Adams, reached Atlanta at 4 o'clock. He was placed on the Central train north of the city. Three knife wounds and one shot wound are on his body.

Joe and Monk Curtis, the two white prisoners who were held in Bibb jail for killing John Newsome, and who were liberated by the mob Saturday night, were re-arrested at their father's home early Sunday morning by deputies, who went immediately in search. They said they intended coming back after the trouble was over.

Sheriff Robertson is now able to account for all his prisoners with only a slight wound for one negro, who was shot.

United States Marshal George White denies a statement published in Macon that John F. Gaynor and Benjamin Greene found themselves released by the mob at the county jail and chose to remain rather than escape. Marshal White and two of his deputies were in the jail before the entrance was gained and were in charge of the two federal prisoners in time to remove them and find a more quiet place until order was restored. Both men were apprehensive of serious danger at the outset and for their safety they were carried away unmolested. That they chose to remain without any effort to take advantage of the occasion there was no doubt, but the two men had company that afforded a safe escort.

Since daylight Sunday morning quiet has prevailed in Macon. The three local military companies are still in the streets and posted about the county jail and the city prison. There has been no attempt anywhere at an outbreak since the militia gained control, and the threatened clash between the two races has abated at least for the present. Violence which seemed so apparent everywhere up to daylight Sunday morning has not occurred, and while there have been slight expressions of ill feelings toward the negroes generally, the one purpose of getting possession of Henry Fews, or Hughes, the negro who shot W. G. Solomon and Charlie Adams, has been supreme. His removal to Atlanta and the open announcement of this fact from the police station has relieved all citizens of further fear.

The usual Sunday night was on save the fact that the tramp of militia was occasionally heard. The whole city has turned attention to the condition of the two prominent young men who lie dangerously wounded at the city hospital.

Adams is shot through the body and suffers from a perforation of the liver, but he is apparently improved and his friends and family have been somewhat relieved of the extreme anxiety. Solomon suffered five perforations of the bowels and an operation necessitated the removal of 4 inches. He is critically ill and the best that can be said by his physicians is that he is resting. His chances for recovery are extremely slight.

Without precaution that would attract attention, Chief of Police Connor had his men place the negro in a patrol wagon and drive him to the Southern railway passenger station at 1 o'clock. There Patrolman J. M. Bunch took charge, and when the two were in the train it moved away. No person suspected that the negro was being removed from Macon.

The militia was in charge during the entire night.

**War Veterans in Encampment.**

Washington, Oct. 9.—Spanish-American war veterans from practically every state in the Union are in attendance on the third annual encampment of the organization which began its sessions here Monday. The first session was called to order by Commander-in-Chief Charles R. Miller of Ohio. Indiana, Ohio, Oklahoma and the southern states sent large delegations. Oklahoma will endeavor to have the next annual encampment held in the new state.

**Double Crime Due to Jealousy.**

Boston, Mass., Oct. 9.—At the Castle Square hotel, Mrs. Deborah Hill, a widow of Malden, Mass., was found with blood pouring from a wound in her throat, while upon the floor a short distance away lay the body of Harry J. Slocumb of West Everett, Mass., with a bullet through his brain. The woman was taken to the city hospital, where she was reported to be in a critical condition. The couple came to the hotel Saturday night, where they registered as Mr. and Mrs. Harry J. Slover of Portland, Me. To the police authorities Mrs. Hill said that the shooting was due to Slocumb's jealousy. He importuned her to marry him, and she refused, and he drew a revolver and shot her in the throat. Then he turned the weapon upon himself.

**Deadly Bullet Sped by Negro.**

Charlotte, N. C., Oct. 9.—Superintendent R. H. Eubanks of Lane Bros. Co. & Jones, contractors on the double tracking of the Southern railway, was shot and instantly killed by Oscar Gaddy, a negro, at the railway camps near Lexington. The deed was committed without provocation. Eubanks had gone to the camp to quiet the negroes, who were raising a disturbance, many being under the influence of whisky. Gaddy escaped. A posse of armed men, numbering 200, with bloodhounds, are scouring the country for him, and if caught he will probably be lynched. A similar tragedy occurred in this vicinity recently, when Foreman Beacham was shot and killed by a negro, who is under sentence to hang this month.

**Chipley Cases to Be Sifted.**

Columbus, Ga., Oct. 9.—When Harris county superior court met on Monday at Hamilton, Ga., Judge Willis presiding, and the grand jury gets to work, one of the first duties devolving upon that body will be the investigation of the Chipley, Ga., feud cases. Several men were bound over on the charge of murder as the result of the Irvin-Hastey feud, in which both men lost their lives, and this tragedy was followed soon by the assassination of Colonel T. T. Murrah, who was probably Chipley's most prominent citizen. In case indictments are returned by the grand jury it is not known whether the cases will be tried at this term of court or whether they will be continued until the next term.

**U. S. Supreme Court Convenes.**

Washington, Oct. 9.—After a four months' vacation, the supreme court of the United States convened Monday for the term of 1906-1907. In accordance with the usual custom an adjournment was taken to permit the members to call on the president, which they did in a body. The hearings of motions and the transaction of other business was postponed until Tuesday.

**Hudgins Stabbed to Death.**

Savannah, Ga., Oct. 9.—J. E. Hudgins, a merchant on Ogeechee avenue, was called into the back yard of his residence and stabbed to death. His wife soon made the discovery and her screams brought assistance, but the man soon died without making a statement. His wife said he went out to make a sale, but she saw no one, and no reason can be given for the crime.

**Ambassador to Japan.**

Paris, Oct. 9.—Unless Japan objects the appointment of M. Gerard, at present minister of France at Brussels, as first French ambassador to Japan has been decided on.

**W. K. Ryan Dies Suddenly.**

Lynchburg, Va., Oct. 9.—W. K. Ryan, son of Thomas Ryan of New York, died suddenly at Oak Ridge Sunday.

## HEAVY FIRE LOSS SUFFERED BY JESUP

### Hotel and Three Busines Houses Destroyed.

**SUPPOSEDLY BY INCENDIARY**

**Though Unable to Save Any of the Buildings Found Aflame, the Citizens Prevented Fire From Spreading to Other Buildings.**

Jesup, Ga., Oct. 9.—Fire, which began at 2 o'clock Monday morning and raged fiercely for more than two hours, destroyed the Strickland hotel and three business houses, entailing a loss of over $5,000. There was no insurance.

Following is a list of the losses:

Strickland House, $2,800.

Bausey Bros.' furniture store, $1,700.

Bryan George, grocery store, $800.

J. H. Bennett, barber shop, $150.

Total losses, $5,450.

The Kicklighter building caught on fire, but the flames were extinguished with only slight damage.

The fire started in the grocery store of Bryan George, and as the front door of the store was found broken open, it is believed to be of incendiary origin.

Upon reaching the store Mr. George attempted to enter, but was driven back by the flames. A hurried examination of the front door showed the work of robbers. Mr. George said he left $172 in money in the store which was consumed.

Jesup has no system of waterworks and the citizens fought the flames with buckets of water. Though unable to save any of the buildings that were found in flames, they prevented the spread of the fire to adjoining buildings.

**Traveling Passenger Agents Meet.**

West Baden, Ind., Oct. 9.—The thirty-fourth annual convention of the American Association of Traveling Passenger Agents opened here Monday. Special trains brought delegations from Chicago, St. Louis, Louisville and Cincinnati. C. L. Stone, general passenger agent of the Louisville and Nashville railroad, will read a paper upon the propriety of allowing outside agencies to handle convention business.

**Marines Landed.**

Havana, Oct. 9.—The cruiser Brooklyn Monday landed 350 marines, who went to Camp Columbia. The battleships Kentucky and Indiana will sail Monday afternoon for New England waters. No further reports of trouble in any part of the island have been received. The disarming of the insurgents is practically complete, with the exception of small isolated bands, who will be disarmed by the rural guards.

**Strong Box Was Empty.**

Paris, Oct. 9.—The Echo de Paris published a dispatch from Cartagena, Spain, announcing that a sensation had been caused there by the discovery that the strong box of the Italian steamer Sirio (wrecked in August last on Romiga's island with the loss of about 150 lives), although found to be hermetically sealed, was empty, raising the presumption of the complicity of the crew in the wreck.

**Made Attendance Officer.**

New York, Oct. 9.—Lawrence Gildersleeve, a young man of Huntington, L. I., whose neck was broken four years ago, has just been made attendance officer of the Huntington High school. Gildersleeve was an athlete before his neck was broken, and is now unable to participate in all sports he once took part in. Gildersleeve's neck was broken in a football scrimmage.

**Treaty Claims Continued.**

Washington, Oct. 9.—The president Monday issued an order continuing the Spanish treaty claims commission to March 2, 1907. This is the commission of which former Senator William E. Chandler of New Hampshire is president.

**ONE FOUND DEAD IN WAGON.**

**Officers of Dougherty County Battle With Drunk Negroes.**

Albany, Ga., Oct. 9.—A coroner's jury has spent several hours inquiring into the death of George Singleton, who was killed on a country road 4 miles below Albany.

The reckless driving and discharge of firearms on the country roads by drunken negroes on Saturday afternoons and nights has caused the county authorities to police the country roads, deputy sheriffs being stationed at different points on all the highways leading out of the city.

Deputies B. F. Manning and G. T. Denson attempted to stop a wagon, which was full of reckless rowdy negroes, who refused to stop until Deputy Manning had fired two shots from his revolver. Then the wagon stopped, and it was found that George Singleton was dead in the bottom of the vehicle.

Manning stated that he had fired into the air. He is corroborated by Denson. The bullet which killed Singleton entered the back low down and ranged up to the region of the heart. In spite of the charge made by negroes in the wagon, that Manning had fired the fatal shot, the evidence showed plainly that in all probability, Singleton had been killed by his own pistol, as he was attempting to draw it for the purpose of firing at the officers. The negro's revolver was not found, however. It is believed that it was concealed by one of the dead man's companions.

The coroner's jury made a verdict exonerating Manning. There has been some feeling among the negroes over the killing, but the coroner's jury verdict is accepted as being borne out by the evidence. From his position on horseback Manning could not have fired the fatal shot.

**Negro Lynched In Arkansas.**

Argenta, Ark., Oct. 9.—As a sequel to the killing of John Lindsay and wounding of his son, Policeman Milton Lindsay here, presumabaly by Garrett Colum and Charles Colum, negroes, H. Blackburn, a negro, was lynched Sunday night at 10 o'clock at the corner of Sixth and Main streets. The trouble originated on Sept. 12, when a white man named R. R. McDonald killed a negro musician named Wiley Shelby. Next day at the inquest held at the Colum's undertaking store, a difficulty arose, in which Robert Colum was killed and Deputy Constable Ed Lindsay and Garrett Colum severely wounded, the latter emerging from the hospital only Sunday. Policeman Milton Lindsay, a brother of Ed Lindsay, was also hurt at that time.

**Telegraph Clerk Shot.**

Sacramento, Cal., Oct. 9.—While Oscar Herold was going home from a whist party, he saw a man standing by a tree near the corner of Tenth and G streets. Herold says he stopped and asked the man what he was doing there. Getting no answer, Herold drew a revolver and fired twice at the man, who did not move. The man pitched forward on his face with a bullet in his forehead. He died two hours later in the receiving hospital. The dead man was Charles W. Theiss, who was head clerk in the Postal Telegraph company's office in this city. It is said he had over-indulged in liquor and it is believed wandered out of his way. Herold was released on $10,000 bail.

**Writ of Error Denied.**

Jefferson City, Mo., Oct. 9.—Division No. 2 of the Missouri supreme court Monday denied Mrs. Aggie Myers a writ of error to the supreme court of the United States. Her attorneys may now apply to one of the judges of the United States supreme court for such a writ to appeal the case to that court for review. Oct. 26 is the date set for Mrs. Myers to be hanged for the murder of her husband.

**Machinists On Strike.**

Birmingham, Ala., Oct. 9.—A special to the News from Selma says that all of the machinists in the shops of the Southern Railway in that city, 46 in number, struck Monday for higher wages. This action was taken on a communication from the executive committee of the national organization.

### Corn Trust to Be Smashed.

Mexico City, Oct. 9.—Measures will be taken by the government to prevent hoarding of corn in anticipation of higher prices, and it is probable that the duty or foreign corn will be temporarily removed. Government experts believe there is an abundance of native corn in granaries all over the country, and that the high price is the result of a combination which is injurious to the great mass of the people.

## THE NEWS FROM MELROSE

Improvements in Huffman House. Large Crowd Expected

Melrose, Oct 8.—Much interest is being shown in the approaching marriage of Miss Flossie Corpew to Mr Allan Wigginton of Miami. The important event will take place on the morning of October 17th, at the residence of her aunt, Mrs. N F. Fiekle.

New arrivals in town are A. Gomez and family of New York, who are occupying the cottage property formerly belonging to J A. Remmel.

Among those returned from their visits North are Mr. and Mrs. D O Kent and Mrs. S. Rowe.

E A Kennedy and family of Brooklyn, Fla., have removed to town to the Merryman cottage, on Starke avenue.

The public school, under the efficient management of the Misses Anderson, is doing finely Over sixty scholars are enrolled, with one hundred and fifty more to follow.

Mrs. C. P. Huffman has returned from a pleasant visit to relatives in Live Oak and Jasper.

Quite a crowd of Melrose baseball enthusiasts followed their team to Grandin on Friday, hoping to win the third game from the Grandin team; but, sad to say, the score was 11 to 8 the other way. Everybody speaks very highly of the way they were treated while in Grandin.

C. P. Huffman of the Huffman House reports that the prospects of a full house are very good indeed Several rooms are already engaged to their regular winter visitors, and he has numerous letter asking for rates. The hotel has been much improved by changes in the kitchen, etc., and is now being repapered and painted.

### Litle Damage by Rebels.

New York, Oct. 9.—Advices from Havana state that amazingly little damage occurred as a result of the insurrection in Havana province, where much of the fighting was done. There are no burned houses or barns; no ruined crops or devastated fields to mark the tracks of government troops or rebels. In this respect it is stated it will be the cheapest revolution in West Indian history. Farmers everywhere have returned to their fields.

### Mill Laborers Scarce.

Providence, R. I., Oct. 9.—Cotton mill agents in Rhode Island complain of a scarcity of help in some departments and assert that in this respect the increases in wages granted early last summer did not have the beneficial result hoped for. The increase has not thus far drawn back a sufficient number of those who left the mills when wages were lower and when there was dissatisfaction among the workmen for other reasons.

### Tragedy After the Ball.

Covington, Ga., Oct. 9.—While returning from a "breakdown" at Newbern a crowd of blacks engaged in a brawl, resulting in one of their number being shot to death. Jim Key and Sam Wilborn, charged with the killing, were arrested by Marshal Harwell of Newbern and turned over to the sheriff.

### Quiet After Double Lynching.

Mobile, Ala., Oct. 9.—The fears that were entermined in regard to the negros retaliating for the lynching of Thompson and Robinson, charged with rape, has disappeared, and the city is as quiet as if nothing out of the ordinary had occurred.

### Woman Fatally Injured.

Chicago, Oct. 9.—Mrs. Isabelle Cupler, wife of Dr. Ralph Cupler, received, it is feared, fatal injuries Sunday night when an automobilist ran into the buggy in which she and her husband and 7-year-old son Walter were driving. The automobilist attempted to guide his huge touring car with one hand and was holding a cigar in the other, according to a witness. No arrests were made.

### African Church Bishop Dead.

Xenia, O., Oct. 9.—Bishop William Benjamin Arnett of the African Methodist Episcopal church, died Sunday night at Wilberforce university of uremaic poisoning.

## MAHOGANY.

### The Way This Beautiful Wood Was Brought Into Fashion.

Every one knows how effective and handsome mahogany is when used for good furniture, but few of us know how its value was first discovered.

In the latter part of the seventeenth century a London physician had a brother engaged in trade with the West Indies who on one occasion brought home several logs of mahogany as ballast. The doctor was building a house, and his brother suggested that the logs would serve for ceiling beams. Acting on the proposal, the doctor gave orders to the workmen to make use of the mahogany, but their tools were not equal to the task of cutting the hard wood, and the logs were put out of the way in a corner in the garden.

Some time afterward the head carpenter tried to make a box from the wood, but was unsuccessful with ordinary tools. He told the doctor, who was interested in the baffling timber and ordered heavier tools to be made to work it with, says Home Notes. When this was done and a box at last made and polished, it was so handsome that a bureau was made from another of the despised logs, and this was declared by experts to be so superior to other furniture making woods that the craze for mahogany set in, and furniture made from it became highly popular, the then Duchess of Buckingham fostering the craze in the fashionable world.

### A Sea Serpent Identified.

Some forty years ago, when out with a boating party for seagull shooting, I espied a monster fish basking on the surface of the water, with its head well up in the air. The creature allowed us to get within thirty yards, when I sent two charges of shot into its head, with the result that it rolled over on its back, and our boat soon came up to it. It proved to be a large angel shark. I thought I would make quite sure it was dead and sent two more charges into its upturned belly. I must have, unfortunately, burst its air bladder, for it began slowly to sink. Had I not killed it at first, and had it reared its head and flapped its wings, we should probably have added one more story to the long list of sea serpent fabrications.—Manchester Courier.

### A Narrow Squeak.

"Your front door is unlocked, sir!" shouted the policeman when he found that Mr. Careless Householder had gone to bed without attending to his locks.

"It's all right," replied the burglar from the bedroom window a minute later; "my son will lock it when he comes home. Here's a shilling for you."

"An easily-earned bob," chuckled the policeman as he walked away.

"A narrow squeak," said the burglar, with a sheet round his shoulders.

"Very," replied his accomplice, whose hands were tightly clasped over poor Mr. Careless Householder's mouth.—London Express.

### Skirt and Shirt.

"Skirt" is etymologically the same word as "shirt," though it has come over another linguistic route and properly means a short garment. In fact, "skirt," "shirt," "short," "shear," "kirtle" and "curt" are in all probability near relations. But "skirt" has got itself specialized to a lower garment, with special reference to the lower edge thereof, the boundary where the garment is cut short, whence the verb "to skirt."

## MUST LOOK YOUNG.

**This Accounts For Dyed Locks That Nurses Sometimes Show.**

"Yes, she's a good nurse, doctor," said the patient, rather reluctantly.

"You don't mean that," was the answer of the physician. "What's the matter with her? Come, tell me."

"Nothing," began the faint contradiction. "She's quiet, tidy and sympathetic, but, doctor, her hair's dyed. I could see it plainly yesterday when she sat between me and the window."

The doctor did not speak for a moment. He did not even look surprised.

"Such a nice nurse, too," went on the patient. "Why should she do such a foolish thing?"

It was then that she learned from the doctor that dyed hair is not nearly so uncommon in the case of trained nurses as might be supposed. Sick people like to have young nurses about them. Even physicians have a weakness for the young nurses. They believe that their interest and enthusiasm are greater.

"The nurses' term of usefulness is short enough as it is," this physician said, "for the work is so exhaustive that they must soon succumb. Some of them are compelled to give up after ten years. Few are ever able to keep up until they have put in twenty years.

"If they feel that gray hairs, coming perhaps a little earlier than they are due, are going to make the term of their best days even briefer they are driven to hiding those traces of time and overwork by the use of hair dye, and the number that do make use of it is very much larger than anybody supposes."—New York Sun.

**The Great Difficulty.**

"One-half of the world's happiness is solved when a person learns to mind his own business."

"Yes, but it's the other half that causes the most trouble."

"What's that?"

"Getting other people to mind theirs."—Home Notes.

## DETERMINING LEVELS.

**Method by Which Every Man May Be His Own Surveyor.**

A simple way of roughly determining levels, and one which can readily be practiced by any one and which has the advantage of not requiring any special apparatus, is by means of a spirit level and a board with a straight edge. The way to go about it is this: First determine on two points the levels of which you wish to know and drive stakes into the ground. Then take a board with a straight edge and tack it to a tree, if one happens to be available, in a line with these two stakes. Put the board at such a height that you can readily sight over it and carefully level this board by means of the spirit level. Then sight it over toward one of the stakes, having some one at that stake who will, by means of a small piece of paper, locate the point at which your line of vision cuts it—in other words, where a line projected from your sighting board would strike the stake. Make some sort of mark at this point and then sight to the other stake in the same way and mark the point where the line would strike it. By measuring distances that these two points are above the ground you can get the difference in levels with reasonable accuracy. For instance, if your line of vision has cut one stake eight feet from the ground and the other one five feet from the ground, then obviously the difference in level is three feet, or, in other words, the vicinity of the stake on which the mark is five feet from the ground is three feet higher than the other stake, and you will have a three foot fall from draining from this point to the other.—Farming.

## THE ELOQUENT NUDGE.

**An Incident Illustrating a Trait in Woman's Nature.**

"Do you see the woman walking in front of us there?" asked the man with the fashionable tie to the friend who was strolling up Broadway with him. "Do you notice anything particularly striking about her? Nothing, except that she is very well dressed? That's what I would say. Now, I'll bet you half a dollar that when she passes the three women walking just ahead of her all three will nudge each other simultaneously."

The woman behind was walking faster than the three in front and she soon passed them. The three women looked her over from foot to head, then nudged each other with their elbows as if possessed with the same thought.

"How did you know it?" inquired the friend as the other pocketed the half dollar.

"I didn't know it," was the reply. "If I had it would have been taking an unfair advantage of you to bet. But I was reasonably certain of it. There is a certain indescribable something in some women's manner, appearance and carriage that causes all other women to nudge each other at sight of her. I couldn't tell you just what it is, but I'm ready to put up a wager on it every time. The nudge is simply a part of women's sign language which means something that cannot be put into words, but which every other woman understands."—New York Press.

**The Word "Crank."**

Crank in the sense of an eccentric person is a new word. The very first written instance of crank in the modern sense that could be found for Dr. Murray's dictionary was in the reports of the trial of Guiteau, President Garfield's murderer. Guiteau's reference to somebody as a crank gave the word a vogue that has gone on spreading. But the adjective cranky was known in 1787 as meaning sickly (the German "krank"), and to Dickens in the senses of cross and crochety. In all its meanings it springs from the root idea of crookedness, as does crank in its sixteenth century sense of a deceitful trick, as in "quips and cranks."

**Blood Poisoning**

results from chronic constipation, which is quickly cured by Dr. King's New Life Pills. They remove all poisonous germs from the system and infuse new life and vigor; cure sour stomach, nausea, headache, dizziness and colic, without griping or discomfort. 25c. Guaranteed by all druggists.

**Lunar Athletics.**

The "man in the moon" must surely regard with unbounded contempt our much vaunted athletic records. A good terrestrial athlete could cover almost 120 feet on the moon in a running broad jump, while leaping over the bars would be a very commonplace feat. He would find no difficulty in carrying six times as much and running six times as fast as he could on earth, all because the moon attracts bodies with but one-sixth of the force of the earth.

# MIDDLE LIFE

**A Time When Women Are Susceptible to Many Dread Diseases—Intelligent Women Prepare for it. Two Relate their Experiences.**

The "change of life" is the most critical period of a woman's existence, and the anxiety felt by women as it draws near is not without reason.

Every woman who neglects the care of her health at this time invites disease and pain.

When her system is in a deranged condition, or she is predisposed to apoplexy, or congestion of any organ, the tendency is at this period likely to become active—and with a host of nervous irritations make life a burden. At this time, also, cancers and tumors are more liable to form and begin their destructive work.

Such warning symptoms as sense of suffocation, hot flashes, headaches, backaches, dread of impending evil, timidity, sounds in the ears, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness, inquietude, and dizziness, are promptly heeded by intelligent women who are approaching the period in life when woman's great change may be expected.

Lydia E. Pinkham's Vegetable Compound was prepared to meet the needs of woman's system at this trying period of her life. It invigorates and strengthens the female organism and builds up the weakened nervous system.

For special advice regarding this important period women are invited to write to Mrs. Pinkham at Lynn, Mass., and it will be furnished absolutely free of charge. The present Mrs. Pinkham is the daughter-in-law of Lydia E. Pinkham, her assistant before her decease, and for twenty-five years since her advice has been freely given to sick women.

Read what Lydia E. Pinkham's Compound did for Mrs. Hyland and Mrs. Hinkle:

Dear Mrs. Pinkham:—

"I had been suffering with displacement of the organs for years and was passing through the change of life. My abdomen was badly swollen; my stomach was sore; I had dizzy spells, sick headaches, and was very nervous.

"I wrote you for advice and commenced treatment with Lydia E. Pinkham's Vegetable Compound as you directed, and I am happy to say that all those distressing symptoms left me and I have passed safely through the change of life, a well woman. I am recommending your medicine to all my friends."—Mrs. Annie E. G. Hyland, Chestertown, Md.

**Another Woman's Case**

"During change of life words cannot express what I suffered. My physician said I had a cancerous condition of the female organs. One day I read some of the testimonials of women who had been cured by Lydia E. Pinkham's Vegetable Compound, and I decided to try it and to write you for advice. Your medicine made me a well woman, and all my bad symptoms soon disappeared.

"I advise every woman at this period of life to take your medicine and write you for advice."—Mrs. Lizzie Hinkle, Salem, Ind.

What Lydia E. Pinkham's Vegetable Compound did for Mrs. Hyland and Mrs. Hinkle it will do for other women at this time of life.

It has conquered pain, restored health, and prolonged life in cases that utterly baffled physicians.

**Lydia E. Pinkham's Vegetable Compound Succeeds Where Others Fail.**

## ST. LOUIS PEOPLE GIVE SYMPTOMS

### Mound City People Interviewd on the Subject.

### STATEMENTS ARE SECURED

**It is Claimed by Cooper That Monster Worms Cause Fifty Per Cent of So-called Stomach Trouble—Results Bear Him Out.**

St. Louis, Oct. 9.—Nothing has done so much to arouse the people in St. Louis as the immense number of parasites or tape-worms that are being removed from individuals by a preparation known as Cooper's New Discovery.

This preparation is being introduced in this city for the first time by L. T. Cooper, the young philanthropist who has made and is making a fortune by its sale. The medicine is prepared at Dayton, Ohio, and is sold for various forms of stomach trouble. It is now being sold in St Louis in such enormous quantities as to have caused a general discussion by physicians throughout the city.

Cooper claims that much suffering is the result of tape-worms, and stated early during his visit that the creatures were responsible for fifty per cent of all stomach trouble. This claim seems to be verified, as fully one-half of the individuals who have taken this preparation have been relieved of one of these creatures.

A reporter who spent an hour at Cooper's headquarters, secured statements from a number of people, who brought one of the creatures to the young man, yesterday. The following are some of these statements and are similar to all the rest.

Mr. Chas. H. Muetz, living at 4031 Easton Ave., who brought with him a tapeworm about fifty feet in length, when questioned, said: "I have been in poor health for eight years. I have attribited it to my stomach, although I was not certain just what was the matter with me. I felt dull most of the time and the least exertion tired me. I had a very irregular appetite and always had a coated tongue. I was troubled with shortness of breath, headaches, dizziness, sleeplessness and would see specks before my eyes if I stooped over and raised up quickly.

"My worst trouble was that I seemed to lack all ambition and it was difficult to attend to my business as I always felt tired even after a night's sleep. My mind seemed dull and sluggish most of the time and I had difficulty in remembering. I have had headache a great deal and have done everything possible, but could get no relief.

"I heard so much of this man Cooper, that last Wednesday I bought a bottle of his preparation. I did not use it until yesterday, when I took two doses of it and about two hours ago a parasite left my system. I know now what made me feel so badly all these years. I consider this the most remarkable preparation I ever heard of. It has made life worth living for me once more and I am very thankful."

The statement of Mr. William Bracken, of 720 Morgan St., was as follows: "I had suffered with stomach trouble for three years. I was not sick enough to be in bed, but just felt bad all the time. My greatest trouble was that I always felt tired—would get up in the morning feeling as tired as when I went to bed.

"I had a very irregular appetite and was troubled with dizzy spells. If I stood for any length of time I would have a dull pain in the lower part of my back. I was nervous and felt all the time as though something terrible was going to happen. My memory has been getting bad during the past year and my eyesight is not as keen as it was. I have tried many kinds of medicines but nothing ever helped me.

"I had almost given up all hope of ever being in good health again, when I heard so much of Cooper and decided to try his medicines. I bought one bottle of his New Discovery, as it is called. I took just three doses of the medicine and this tapeworm, which is over seventy feet in length, left my system. I never suspected that I had this thing. I feel better already and believe I will get back some of the flesh I had lost during the past few years. I would not hade that thing in me again for a thousand dollars."

These statements and others like them go far toward accounting for Cooper's immense success here and elsewhere. So far every claim made by the young man seems to have been verified.

### Woman Terribly Scalded.

New York, Oct. 9.—Mrs. George H. Jenks, 60 years old, wife of a Chicago physician, is in a serious condition at St. Luke's hospital as a result of a peculiar accident in her apartments at the Waldorf-Astoria early Monday. Mrs. Jenks, who had been staying at the hotel, with her husband, for several days, has long been a victim of insomnia, and it has been her custom to take a hot bath immediately before retiring. Some time after midnight Mrs. Jenks filled the bath in her suite and stepped in. The water was almost boiling, and she was terribly scalded before her husband succeeded in removing her from the tub.

### Doctors Said He Would Not Live.

Peter Fry, Woodruff, Pa., writes: "After doctoring for two years with the best physicians in Waynesburg, and still getting worse, the doctors advised me if I had any business to attend to, I had better attend to it at once, as I could not possibly live another month, as there was no cure for me. Foley's Kidney Cure was recommended to me by a friend, and I immediately sent my son to the store for it, and after taking three bottles I began to get better, and continued to improve until I was entirely well." J. W. McCollum & Co.

### Father Kills Daughter's Assailant.

Paducah, Ky., Oct. 9.—Bet Jones, a young negro, was shot to death near Vicksburg by John Scott, a farmer. Jones assaulted a young daughter of Scott's and was chased down by the father and killed. Scott is not likely to be molested, as the sympathy of the people is with him. In the past two months two other negroes were lynched in Livingston county for assaulting women. It is declared an illicit distillery in the locality is the principal cause of the crimes.

### Danger from the Plague.

There's grave danger from the plague of coughs and colds that are so prevalent, unless you take Dr. King's New Discovery for Consumption, Coughs and Colds. Mrs. Geo. Walls of Forest City, Me., writes: "It's a Godsend to people living in climates where coughs and colds prevail. I find it quickly ends them. It prevents Pneumonia, cures lagrippe, gives wonderful relief in asthma and hay fever, and makes weak lungs strong enough to ward off consumption. coughs and colds. 50c and $1.00. Guaranteed by all druggists. Trial bottle free.

### Changes In Representation.

Washington, Oct. 9.—Some marked changes in the personnel of the Latin-American representation in Washington have taken place within the last three months, and as the season for activity in diplomatic circles approaches great interest is shown in the representatives from South and Central America. With the return of Secretary Root after his tour of South America, public attention has been directed especially to the southern republics.

### Don't Be Imposed Upon.

Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. These worthless imitations have similar sounding names. Beware of them. The genuine Foley's Honey and Tar is in a yellow package. Ask for it and refuse any substitute. It is the best remedy for coughs and colds. J. W. McCollum & Co.

## SERMONETTES

This would be all our heaven were love strong enough to wipe out every difference and break down the barriers forever.

The worst a problem can be is difficult. Every perplexing problem can be solved, as surely as two and two make four—someway, somehow.

If you were to search for darkness with the sun you would never find it. Nor can the good man be always finding something wrong with his neighbor.

I have noticed that intellectual giants are financial pigmies. The man whose head is in the clouds is too far removed to have his hands in the dirt.

The foal of the racer will never know his speed nor discover his powers if always pastured with the common herd destined for the collar and the yoke.

Most of the people in this big world are in a rut. One is born—he lives and dies—and the world rocks on as though one more or one less had never been.

Too many young men and women are plunging into the world unfitted for the battle. There will be many who will fail to stem the tide in years to come.

The truly great are generally marked in some abnormal way—eccentric. And the fellow who is content to plod on the dead level is most sure to pronounce him crazy.

An old Teutonic schoolmaster was in the habit of doffing his hat to his students. A self-important one chided him for so doing and the master told him that among them might be someone whose destiny would eclipse his own. And well he might, for he was training Martin Luther—then in rags, and singing on the streets in the twilight for bread.

In this age of financial fury the boy scarcely knows his father. Really he is no more than a mere acquaintance. In the home everybody is so busy—mother is overwhelmed by social functions and the father is immersed in financial tides. There is something fearfully sad about it all. The old fire-side chat, and the sacred bonds of the family circle, have about become treasures of the past.

The greatest statesman this continent ever produced, said: "If I work in marble, in time it will crumble; if I work with brass, in time it will corrode; but if I work with the mind, I work with that which will grow brighter through all eternity." This was but an anticipation of the English philosopher's statement: "On earth there is nothing great but man; in man there is nothing great but mind."

Some people just can't draw the boundary between eccentricity and insanity. Zola, the French novelist, passed whole weeks in the firm conviction that he was an idiot. And yet, while in this state of mind, he wrote his masterpieces. Oliver Wendell Holmes, our own American physician, poet and essayist, was a prince in letters. And yet, as great as he was, he persisted in carrying a potato in one pocket and a horse chestnut in the other to keep off rheumatism.

One-eighth of the people of the United States own seven-eighths of the wealth. They have possession of the wealth producing machinery—the mines, mills, factories, railroads, etc. They own but do not use.

It is a pity the big storm did not reach Atlanta a few days earlier, so that it might have had a cooling effect on that superheated city.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address:

### Killing Time.

To read for either instruction or amusement is commendable, but it is not so for the sake of killing time. Late in life, after his fortune had been made, a successful merchant, Mr. S., took a young man into partnership. Entering the office on a dull day in the dull season, the millionaire found his partner yawning over a book. "What's that you're doing?" Mr. S. asked. "There's nothing else to do, so I'm reading," was the answer. "Nothing else to do? Reading?" the great merchant repeated in a tone that expressed wonder, amusement and scorn. "When you've nothing else to do don't read. Think!"

### Imaginary Disease.

The British Medical Journal says that only an imaginary remedy will cure an imaginary disease, which is true to the old maxim, "Similia similibus curantur." It continues: "This may be condemned by the righteous as quackery, and quackery of a kind it undoubtedly is. But if the real end of medicine is to cure can she, when legitimate means fail, afford to despise anything that relieves suffering, even though the suffering be imaginary?"

### Forgiveness.

"I can forgive, but I cannot forget," is only one way of saying, "I will not forgive." A forgiveness ought to be like a canceled note, torn in two and burned up, so that it can never be shown against a man. There is an ugly kind of forgiveness in the world—a kind of hedgehog forgiveness shot out like quills.

### Learning by Experience.

Nell—He always said that no two people on earth think alike. Lil—Well? Nell—He has changed his mind since looking over the presents his wedding called forth.—Woman's Home Companion.

### His Bad Break.

"Why have you and Harry ceased to be friends?"

"He wanted to begin economizing the minute we became engaged."—Chicago Record-Herald.

BAD BLOOD

"I had trouble with my bowels which made my blood impure. My face was covered with pimples which no external remedy could remove. I tried your Cascarets and great was my joy when the pimples disappeared after a month's steady use. I have recommended them to all my friends and quite a few have found relief."

## A TURKISH LEGEND.

**Why the Much Married Man Got to the Mosque First.**

Some years ago, when General Tewfik Hussein was the Turkish minister at Washington, he objected to the curious questions the newspaper interviewers asked him about the harem. One interviewer, however, told the representative of the sublime porte a funny story about Brigham Young and his many wives, and it induced the minister to reciprocate.

"There is a Turkish legend," he said, "to the effect that if a man prays seven consecutive mornings alone in the mosque for good luck it will come. Near St. Sophia mosque, Constantinople, a poor man lived who tried to carry out the injunction; but when he kneeled, to his chagrin he always saw another man who had arrived first. The fourth morning he could restrain himself no longer and cried out: 'What is the secret of your getting to the mosque first? I get up early and lose no time.' The other man asked, 'How many wives have you?' When he answered 'One,' the fortunate man said: 'You can never get to the mosque earlier than I, for I have four wives. When I wake up one brings me my clothes, another gets my shoes, a third prepares my bath, and the fourth cooks breakfast. The result is I lose no time. Now, my friend, go at once and marry three other wives, and you will know the secret of my arriving first at the mosque.'

"The poor Turk followed the advice, and very soon he knew why the man with four wives got to the mosque first—he stayed there in preference to staying at home."—Leslie's Weekly.

### Napoleon Bonaparte

Showed at the battle of Austerlitz he was the greatest leader in the world. Ballard's Snow Liniment has shown the public it is the best liniment in the world. Johnson.

### Suspicious.

"Mother," says the doubting wife, "I do not believe Henry is all that he should be."

"What is wrong with him now, Agnes? A short time ago you were complaining that he stayed out too late of nights. Is he staying out later than ever?"

"No. He spends every evening at home now, and really that looks to me as though he had something on his conscience."—Life.

## LONDON PUNCH.

**One Occasion When the Proprietor Wanted It Stopped.**

The introduction of Sir Francis Burnand to the staff of Punch led to an unusual incident. The Bookbuyer tells the story. Mr. Burnand had given up his profession of law and was devoting himself to writing. It occurred to him that a burlesque on the sensational novel of the day and printed after the manner of the London Journal might make a popular hit. He proposed his plan to the editor of Punch, who at once accepted the idea.

The first installment came out, illustrated by Gilbert, Du Maurier and Keene and reproduced in Journal fashion. It "took" at once and became the talk of the town.

The day of the first issue the senior proprietor of Punch was ill in bed. The number reached him with the Journal burlesque folded on the outside. At first he thought a Journal had been sent him by mistake, but when he discovered that the page formed a portion of Punch he did not stop to read it, but sprang out of bed at once, dressed and hurried to the office.

"Stop Punch!" he cried, bursting into the room. "Stop Punch! You've got a page of the Journal in the form!"

It took considerable explanation to satisfy him that some dreadful mistake had not been made.

This was Mr. Burnand's first appearance on the Punch staff. The next night Thackeray took him to the weekly dinner and introduced him:

"Gentlemen—the new boy."

### Lest We

Forget—baby is restless, can't sleep at night, won't eat, cries spasmodically. A bottle of White's Cream Vermifuge never fails to cure. Every mother should give her baby White's Cream Vermifuge. So many times when the baby is pale and fretful, the mother does not know what to do. A bottle of this medicine would bring color to his cheeks and laughter to his eyes. Give it a trial. Sold by W. M. Johnson.

### The Only Safe Way.

Lawson—You say your wife never disobeys you?

Dawson—No. I never give her any orders.—Somerville Journal.

How much the world needs kindness; how easily it is done!—Drummond.

## HAIR TELLS CHARACTER.

**Color of Hair Said to Indicate a Person's Temperament.**

Many people believe that blonde, or light hair denotes affection and dark hair constancy. A person without hair is not devoid of character; far from it. The disposition of the average baldheaded man is to show such solicitude for the welfare of others, that he neglects himself. A germ causes baldness Prof. Sabouraud, of Paris, France, inoculated a rabbit with Dandruff germs, causing it to become totally bald in five weeks' time. To rid the scalp of these dangerous germs it is necessary to apply Newbro's Herpicide.

"Destroy the cause—you remove the effect."

Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

**The S. J. Thomas Co.**

Gainesville, Florida.

Curtis Baird of Kanapaha, one of the efficient foremen in the employ of T. J. Swearingen, naval stores, is in the city.

Hon. John G. Dampier of Hague, chairman of the Board of County Commissioners, was in the city yesterday for the purpose of attending the special meeting of the board.

I will buy from you, or sell for you, at private sale or auction, any household or kitchen furniture, or anything else you wish to dispose of. The sale of live stock, rent and sale of real estate, a specialty. P. M. Oliver.

W. T. Chesnut, the merchant of Archdondo, was a business visitor to Gainesville yesterday. Mr. Chesnut brought in a quantity of seed cotton to the Dutton gin. He has been buying cotton this season, but declares the crop will be about one-third short.

The friends of S. L. Crews, a well-known and prominent citizen of Hague who has been ill for some time, will regret to learn that his condition is little improved, and that he is still suffering a great deal. It is hoped, however, that there will soon be a change for the better.

Senator A. S. Mann, industrial agent, and P. J. Schavel of New York, a large stockholder of the Gainesville and Gulf railroad, returned yesterday from a tour of inspection of the extension of that road south from Fairfield. They are well pleased with the progress which is being made.

Among the many fine pointer dogs received in this city recently is the one belonging to Dr. J. H. Alderman, which the Doctor purchased from a North Georgia kennel. Dr. Alderman is very fond of gunning, and anticipates a big time in the field the coming season with his new animal, which is of high pedigree.

Hon. W. M. Bitch, of Santa Fe, one of the most widely known and most successful farmers of his section, was among the visitors to this city yesterday. Mr. Bitch has been appointed by the County Commissioners as a sub-commissioner to collect the exhibits for the Florida State Fair to be held in November, and came to attend the special meeting of the board. He reports fine progress.

## A NEW TRAINMASTER.

M. H. McClamroch Has Been Appointed Trainmaster on J. & S.-W.

Owing to the increased amount of business over the Atlantic Coast Line it has become necessary to appoint another trainmaster, with the result that the efficient chief dispatcher of the Gainesville office, M. H. McClamroch, has had the plum fall into his hand, and will assume charge of the Jacksonville and Southwestern division of that system.

E. T. Somerset, one of the most efficient operators or dispatchers in the employ of the Atlantic Coast Line, will succeed Mr. McClamroch as chief dispatcher.

Trainmaster Fred H. Ford will continue in his position as trainmaster of this division, only having been relieved of some territory. The increase of business made it impossible for one man to handle the territory formerly assigned, which necessitated the change.

## DEATH OF JOHN DOW.

Well Known Young Man Passed Away At Montgomery, Ala., Tuesday.

Information was received in this city Tuesday of the death of John E. Dow, which occurred at Montgomery, Ala., at 5 o'clock on Tuesday morning of a complication of diseases resulting from rheumatism.

Deceased was a native of Edgefield, S. C., and was thirty-nine years of age. He was well known in this section of the State, however, where he resided for sometime. He is survived by a wife and two children, four brothers, Wm. E. Dow of this city, J. H. Dow of Atlanta, Ga., Clayton D. Dow of Montgomery and DeWitt Dow of Tampa, and Meadames R. L. Clark of Floral City and R. L. Whitten of Geiger.

### Death of "Bob" Kennedy.

Information of the death of Robt. E. Kennedy, which occurred recently from the result of injuries received in a football game in Pennsylvania, was received here with a great deal of regret. Mr. Kennedy, more familiarly known as "Roaring Bill" among the baseball and football elements, was well known and popular here, having been connected with East Florida Seminary in the capacity of physical director. He was also connected with the Oak Hall baseball team for two seasons, when the Oak Halls enjoyed the reputation of being the cream of ameteur teams of the State.

### Valuable Farm Sold.

E. M. Beville, a progressive young planter of the Bevilleville section, has purchased through A. O. Steenburg a fertile tract of 160 acres of farm land about five miles west of the city.

This land is regarded as among the most fertile in the county, producing abundant crops. About eighty acres are cleared, but the new owner proposes in a short time to clear and fence the remainder.

Friends of Mr. Beville are congratulating him upon the purchase.

Mr. and Mrs. Perry M. Colson returned yesterday from Green Harbor and Boston, Mass., and New York City, after an absence of several weeks. Mr. Colson was compelled to go North for the benefit of his health, and friends throughout the State will be glad to learn that he is greatly improved, and will soon be enabled to resume his extensive naval stores duties, which extend from Taylor county to South Florida.

Wanted—All-round printer. Steady position to good man. Come quick. Alachua Post.

## TUESDAY'S ELECTION.

Advocates for Amendment of City Charter Were Successful.

The municipal election of Tuesday, which was called for the purpose of voting for or against the amendment of Section 10 to the city charter, providing for the abolition of the publication of the city ordinances, was carried in favor of the amendment by a vote of 102 to 54.

The election was a quiet one, there being apparently little interest manifested.

John W. Tench, F. X. Miller, H. Pinkoson and A. J. DaCosta acted as inspectors.

## LADY BALTIMORE TEA.

This Important Function Has Been Postponed For a Few Days.

The Lady Baltimore tea, which was to have been given Thursday for the benefit of the public library, has been postponed to a date to be announced later; but this does not matter, as the tea will "keep," and so will the cake, and the secret of its composition and manufacture will be none the less prized by such of our ladies as shall be fortunate enough to get it later.

Watch for the date, and wait for a piece of the cake, for it will be worth a lot of waiting.

### Miss Wells Married.

Information of the marriage of Miss Pet Wells of Worthington Springs and Dr. J. Pitt Tomlinson of Lake Butler, which occurred recently, has been received by friends here, all of whom extend best wishes. Miss Wells was well known and popular as a young lady, and on many occasions has been the central social figure among the young people at Worthington Springs hotel functions.

Dr. Tomlinson is a prominent and successful young physician of Lake Butler, and is destined to become one of the most successful in his profession in Bradford county.
